

ARCHITECTURAL ANALYSIS AND DEPLOYMENT OF SERVERLESS COMPUTING IN MODERN CLOUD PLATFORMS

1. USERS

Web User

Mobile User

Administrator

2. CLIENT ACCESS

Web Browser

Mobile Application

3. API MANAGEMENT

API Gateway

Authentication

Request Routing

4. SERVERLESS COMPUTE

Function A
User Authentication

Function B
Business Logic

Function C
Data Processing

Function D
Notification Service

5. CLOUD SERVICES

Database

Object Storage

Message Queue

Monitoring & Logging

6. Cloud Infrastructure

Virtualization

Containers

Cloud Platform (AWS / Azure / Google Cloud)

7. BENEFITS

Automatic Scaling

High Availability

Cost Efficiency

Event-Driven Execution

No Server Management

FINAL PLATFORM

Serverless Application Deployment Platform
